Unaffected by temperature variations -40æC to +150æC

Description:
Avery Ultra-Resistant outdoor identification labels are engineered to take on harsh environments where a standard paper label is not fit for purpose.
Delivering maximum performance for outdoor applications even in environments with saltwater and varying temperatures which make these labels ideal for asset management identification on tools and equipment used in such harsh environments.
Create your labels with our free and easy-to-use template software; Avery Design and Print - available at averyproducts.com.au/printThe Ultra-Resistant labels are a permanent adhesive manufactured from a flexible

PE material which stretches and can be adhered to curved surfaces without concerns of it lifting at the corners .
Being saltwater and weather resistant and resistant to many solvents and cleaning agents you can rest assured they will deliver maximum performance as they are unaffected by temperature variations from -40Cæ to +150°C.

Available in a rectangular shape in a size of 99.1 x 67.7mm with 8 labels per sheet and 10 sheets per pack are suitable for black and white laser printers providing a professional finish with crisp print.
It’s never been easier to design your own weather resistant ID labels using software code L7914 with our FREE software Avery Design & Print online where you can find a whole host of images and templates ready to use. You can also create your own by simply adding text logo or design to the label and print on your laser printer. It’s fast and efficient.
